

4x4 All Terrain Winches

AP 1500 4 x 4 All Terrain Winch – 12 Volt Model

Need a helping hand loading or unloading your ATV? Our AP1500 saves you more time for play! Includes ball hitch adapter plate for convenient temporary mount and a standard connect wiring harness for quick set-up.

- ▶ 15,000 lbs rolling load weight
(not to be used as a hoist)
- ▶ Power-in/freewheel-out
- ▶ 10' remote control cord & switch
- ▶ 30' x 7/32" cable
- ▶ Emergency crank handle
- ▶ Two year limited warranty

Part # P77207

AP 3500 All Purpose Winch – 12 Volt Model

Great for really tough jobs at home, on the road, or at work. Includes ball hitch adapter plate for convenient temporary mount and a standard connect wiring harness for quick set-up. One year warranty.

- ▶ 35,000 lbs rolling load weight
- ▶ Power-in/freewheel-out
- ▶ 10' remote control cord & switch
- ▶ 40' x 7/32" cable
- ▶ Pulley block
- ▶ Emergency crank handle

Part # P77331

VS 190 Specialty Winch – 110 Volt Model

Provides plenty of power for multiple uses wherever 110 volts are available. Strong "man-power" the easy way!

- ▶ Rolling load 17,500 lbs
(not to be used as a hoist)
- ▶ Power-in/freewheel-out
- ▶ Emergency crank handle included
- ▶ 60 amp wiring harness
- ▶ Two year limited warranty

Part # P77190

Powerwinch

Powerwinch

2145 W. 6th Ave. Broomfield, CO 80020 • www.powerwinch.com

12 Volt Remote Control **30** Trailer Winch

Max. boat length: 30'
Max. boat weight: 11,500 lbs
Single line vertical lift capacity: 4000 lbs
Double pull/line capacity: 7500 lbs *(Not to be considered or used as a hoist)*

12 Volt Remote Control **23** Trailer Winch

Max. boat length: 23'
Max. boat weight: 7500 lbs
Single line vertical lift capacity: 2400 lbs
Double pull/line capacity: 4300 lbs *(Not to be considered or used as a hoist)*

Both the Remote Control 30 & 23 feature:

- ▶ Wireless remote operation
- ▶ Convenient light enclosed in the trailer winch casing to assist you
- ▶ Emergency crank conveniently stores in winch casing
- ▶ Features remote power-in/freewheel-out operation
- ▶ Re-designed, stronger housing
- ▶ Pulley block provides for double line applications
- ▶ Two year limited warranty

Model RC 30 Part # P55950

Included with the Remote Control 30 & 23:

Both the Remote Control 30 and 23 include a push-button unit and an emergency crank that stores conveniently in the case. Also included is a 60 amp wiring harness and all hardware necessary for installation.

Model RC 23 Part # P55750

Effortless trailer loading, remote control and . . .

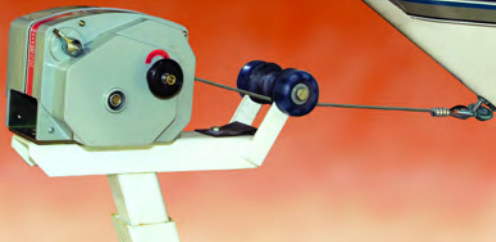

The RC 30 and RC 23 are remotely operated so loading your boat onto the trailer is easier than ever! No more cranking, struggling and pulling. With Powerwinch's new RC 30 and RC 23, just stand back, push the remote button and watch the boat glide on to the trailer.

A built-in light so you can use your boat at night!

Get the latest in technology and strength with the Powerwinch RC 30 and RC 23 state-of-the-art trailer winches.

All Powerwinch 12V trailer winches have smooth-running, heat-treated gear systems for long life and protection against wear and tear. They feature a corrosion-resistant zinc-plated frame, an aircraft quality cable, a level wind system to prevent cable snarls and a UV resistant ABS plastic housing.

12 Volt electric model **912** Trailer Winch

The Powerwinch Model 912 Trailer Winch is well established with a solid, reliable reputation. It features smooth power-in/free-wheel-out action. You can use a pulley or block at the bow eye to double your pulling power. Two year warranty.

30' suggested max boat length (suggested)

Max. boat weight of 11,500 lbs

- ▶ Features power-in/free-wheel-out operation
- ▶ 60 amp standard wiring harness
- ▶ Pulley block for double line applications
- ▶ Two year limited warranty
- ▶ Vertical lift capacity (single line): 4000 lbs.
Double pull/line capacity: 7500 lbs

Model 912 Part # P77912

Stainless Steel Universal Replacement Winch Cables

For all manual and electric trailer winches. High chromium content and added nickel make these cables virtually impervious to corrosion and add years of service. Ideal for any winch using 7/32" diameter cable, designed for handling boats up to 11,500 lbs. Superior 7 x 19 strand cable construction

**Select the right replacement
for your old, worn cable**

Model P1088100AJ	25' with galvanized hook
Model P1096500AJ	25' with galvanized swivel pulley block & hook
Model P1088200AJ	50' with galvanized hook
Model P1096600AJ	50' with galvanized swivel pulley block & hook

12 Volt electric model **712** Trailer Winch

The Powerwinch Model 712 Trailer Winch is virtually identical to the Model 912 except it's designed for

a smaller boat. The Model 712 features the same power-in/free-wheel-out operation, wiring harness and pulley block for double line application as the Model 912. Two year limited warranty.

23' suggested max. boat length (suggested)

Max. boat weight of 7500 lbs

- ▶ Vertical lift capacity (single line): 2400 lb
Double pull/line capacity: 4300 lbs

Model 712 Part # P77712

for maximum pulling strength. Complete installation instructions included. Available with heavy duty zinc plated swivel pulley block.

12 Volt Electric Model 915 Trailer Winch

Max. boat length: 29' (suggested)
Max. boat weight: 9,500 lbs

5

Trailer Winches

Power-in, power-out allows you to control your boat as it is lowered into the water. The 915 comes complete with a 10' remote control cord and switch. It also features a pulley block for double-line applications, emergency hand crank and a 60 amp standard wiring harness.

- ▶ Vertical lift capacity: 3200 lbs
Double line capacity: 7500 lbs (*not to be used as a hoist*)
- ▶ Power-in/power-out control
- ▶ Line speed 10 FPM
- ▶ 12 volt operating power
- ▶ 10' remote control cord and switch
- ▶ 40' x 7/32" cable
- ▶ Manual hand crank
- ▶ Pulley block for double-line availability
- ▶ 60 amp standard wiring harness
- ▶ Two year limited warranty

Model 915 Part # P77915

Why power-in/freewheel-out . . . or power-out?

With the power-in/freewheel-out system, the electric motor pulls the boat onto the trailer yet has a clutch release that allows gravity to float the boat easily into the water. If you need more control when deploying your boat, get the power-out 915 Trailer Winch.

12 Volt Electric Model 215 & 315 Trailer Winches

6

Trailer Winches

Power-in, freewheel-out for fastest anchoring and retrieval speeds. The Model 215 easily retrieves fishing and light-weight boats. The Model 315 is designed for mid-size boats. Both are 12 volt, electric cable winches and feature an adjustable clutch for controlled boat launching. It's easy to self-load with switch and convenient 25' lanyard cord. Both come complete with a color coded 30 amp standard wiring harness for easy connection to the vehicle's battery. Regardless of size, Powerwinch winches are made from the highest grade materials and designed for long wear.

Model 215 Part # P77702

16' suggested maximum boat length (suggested)

Max. boat weight: 3500 lbs

- ▶ Vertical lift of 1500 lbs
- ▶ Easy to self-load with convenient 25' lanyard cord
- ▶ One year warranty

Model 315 Part # P77315

17' suggested maximum boat length (suggested)

Max. boat weight: 4000 lbs

- ▶ Vertical lift of 1650 lbs
- ▶ Easy to self-load with convenient 25' lanyard cord
- ▶ Line speed of 15 FPM
- ▶ Two year warranty

Strap winches are strong, yet easier to work and easier on the hands than cables.

Part # P77702

12 Volt Electric Model ST 215

Max. boat length: 17'
Max. boat weight: 4000 lbs
Max. vertical lift: 1500 lbs

The Model ST 215 features a 20' x 2" polyester strap and power-in/freewheel-out operation. The Model ST 215's reliable spur-gear system provides more powerful pull with less amperage draw. Rugged ABS weather-resistant housing for the toughest environments. Positive Lock prevents unwanted strap slippage. Fast, easy installation and a one year limited warranty. Accessories not shown include a 30 amp circuit breaker, trailer mounting hardware, emergency hand crank, color-coded wiring harness and a 25 foot lanyard for operating the winch.

Part # P77204

12 Volt Electric Model ST 712

Max. boat length: 23'
Max. boat weight: 7500 lbs

The ST 712 features easy power-in/freewheel-out operation and is ideal for float-on-trailers. Quality motors and the heat-treated spur gear mechanism provide the strength and power needed for many years of carefree boating.

- Vertical lift capacity of 2000 lbs (Not to be used as a hoist)
- Line speed of 10 FPM
- 12 volt power source
- Emergency hand crank
- 20' x 3" UV resistant strap
- 60 amp standard wiring harness
- Two year limited warranty
- Comes complete with all wiring, installation hardware and a 25 foot lanyard for operating winch

What size of 12 volt trailer winch do you need? Powerwinch comparison chart

Two main factors determine which trailer winch is best for you. Trailer winches are rated by the amount of weight of the boat, and also their pull rating or lift capacity.

Model	Supp Boat Length	Max. Boat Weight*	Line Speed	Vertical Lift Capacity	Remote Control	Light	Double Line Capacity	Gear Ratio	Circuit Breaker	Unit Weight	Dimensions	Cable Length and Diameter
RC 30	23'-30'	11,500 lbs	8 f.p.m.	4000 lbs	Yes	Yes	7500 lbs	450:1	60 amp	36 lbs	9.5" x 11.5" x 9"	40' x 7/32"
RC 23	17'-23'	7500 lbs	14 f.p.m.	2400 lbs	Yes	Yes	4300 lbs	225:1	60 amp	34 lbs	9.5" x 11.5" x 9"	40' x 7/32"
915	22'-29'	9500 lbs	10 f.p.m.	3200 lbs	No	No	5900 lbs	450:1	60 amp	40 lbs	10" x 10" x 8"	40' x 7/32"
912	23'-30'	11,500 lbs	8 f.p.m.	4000 lbs	No	No	7500 lbs	450:1	60 amp	35 lbs	10" x 10" x 8"	40' x 7/32"

ST 712	up to 23'	7500 lbs	10 f.p.m.	2000 lbs	No	No	N/A	225:1	60 amp	29 lbs	10" x 10" x 8"	20' x 3" strap
ST 215	up to 17'	4000 lbs	10 f.p.m.	1500 lbs	No	No	N/A	270:1	30 amp	23 lbs	10" x 10" x 8"	20' x 2" strap

*When calculating boat weight, be sure to include boat, motor, fuel, gear and supplies. If in doubt, select the next larger size.

Safety tip: Do not use your trailer winch as a tie-down. Trailer winches should not be used as hoists.

To prevent mishaps, use separate tie-downs to secure your boat on the trailer.

Available with optional Remote Control. *(Remote control must be purchased separately).*

Pontoon Boat Anchor Windlass 24

Fishing and boating just got more fun by using the Class 24 Pontoon & Fishing Boat Anchor Winch. No more hanging over the boat to retrieve your anchor! The Class 24 Pontoon Winch is a great Anchor Winch for boats up to 24 ft. Two year limited warranty.

- ▶ Automatically retrieves and spools the anchor line
- ▶ 12V operating power with 15 amp circuit breaker
- ▶ Lifts river and lake anchors up to 32 lbs
- ▶ Retrieval speed 80 ft/minute
- ▶ Installation kit includes 30' of red and 30' of black 10-gauge wire

Fore & aft anchors keep your boat where you want it!

Pontoon owners need two anchors and two windlasses. With their high profile, pontoon boats tend to swing in the breeze more than other boats. When fishing, swimming, or just relaxing with the perfect view, two anchors keep the boat where you want it. They also prevent boats from drifting away from swimmers and into other boats or shorelines.

Choose the right winch for your boat

Free-Fall Anchor Windlasses

Automatic helm-operated free-fall windlasses
The safest way to anchor!

Durable aluminum housing with e-coat primer and polyester powder coat
No plastic parts to crack – Finish is chip-resistant

Patented Free-Fall System anchors up to 300'/min
Up to four times faster than powering down

Exclusive stainless steel rope and chain guidance system
Durable materials stand up to years of use

Ultra smooth motor uses less amps
Free-fall does not need battery power so it preserves your battery

Built with durable stainless steel fasteners
Resists corrosion for easy removal

Protect-a-deck rubberized deck gasket
Keeps unit from scuffing your deck

Helm operated one-touch control
Easy to reach and easy to use

Replaceable Rode-Glide
Smoothly channels rope and chain below deck

Watertight seals
For additional protection against corrosion

One piece motor plate
For smooth power transmission & improved gear life

Heat treated oil-impregnated gear systems
Smoother operation, resists corrosion, lasts longer

Above deck design
More storage space for rope and chain

Stainless steel drive shaft
For years of smooth, reliable performance

Use tapered back splice
For smooth rope-to-chain transition

Sleek styling with small footprint
Uses up to 40% less deck space than the competition

Benefits of Free-Fall over Power-Down:

- ▶ **Fastest way to anchor** – Anchor drops up to four times faster!
- ▶ **Safety** – Allows you to anchor quickly in poor conditions.
- ▶ **Easiest way to anchor** – Free-Fall stops when the anchor has reached bottom – Rope does not collect on your deck while you power down.
- ▶ **Easiest to use** – Just hold the helm switch for only five seconds to release free-fall, versus one to three minutes powering down.
- ▶ **Precise anchoring location** – Anchor your boat where you want it to be, unlike powering down where your boat will drift while you power down.
